

# Poster Session

Location of the board to display your poster is identified by your poster number in this list

1. [Analysis of chondroitin/dermatan sulphates using high-performance liquid chromatography](#)  
Ivan Mikšík, *Institute Of Physiology Cas, Prague, Czech Republic*
2. [Nanofibers as a modern extraction sorbent for drugs in biological matrices](#)  
Hedvika Raabová, *The Charles University, Faculty Of Pharmacy, Hradec Králové, Czech Republic*
3. [Challenges in Implementation of the Method for Determination of Ammonia in Sodium Bicarbonate](#)  
Maria Zuckerman, *Teva Pharmaceutical Industries, Ltd., Global R&D, Israel*
4. [Unusual Investigation Case: What Happened with Assay Reproducibility?](#)  
Akmurat Nepesov, *Teva Pharmaceutical Industries, Ltd., Global R&D, Israel*
5. [Development of a highly selective two-dimensional HPLC-MS/MS system for the screening of intrinsic D-amino acids in human clinical samples](#)  
Chiharu Ishii, *School Of Pharmaceutical Sciences, Kyushu University, Fukuoka, Japan*
6. [Simultaneous determination of oligosaccharides and iridoid glycosides in rat plasma using hydrophilic interaction chromatography coupled with tandem mass spectrometry: Challenges in bioanalytical method development for pharmacokinetic study of Radix Rehmanniae extract](#)  
Xin Di, *Shenyang Pharmaceutical University, Shenyang, China*
7. [Pharmacokinetics of determined bioactive components in Artemisia capillaris](#)  
Wan-Ling Li, *Kaohsiung Veterans General Hospital, Kaohsiung, Taiwan*
8. [Evaluation of Rifaximin Potency by New, Fast and Low-Cost Microbiological Method](#)  
Ana Kogawa, *Universidade Estadual Paulista, Araraquara, Brazil*
9. [New Rifaximin Samples: Obtaining, Characterization, Solubility Study and Microbiological Evaluation](#)  
Ana Kogawa, *Universidade Estadual Paulista, Araraquara, Brazil*
10. [Validation of an UV method for the determination of ciprofloxacin in cocrystals](#)  
Ana Kogawa, *Universidade Estadual Paulista, Araraquara, Brazil*
11. [Comparative serological screening of immunoproteomes of healthy individuals and patients with multiple myeloma in the long-lasting remission](#)  
Zuzana Bilkova, *University Of Pardubice, Czech Republic*
12. [A Unique Case of Polymorphism](#)  
Roxana Schlam, *Bristol-Myers Squibb, New Brunswick, NJ, USA*
13. [Ultrasensitive and selective nonenzymatic detection of glucose using AuNP embedded polymeric nanostructures](#)  
Zeynep Altintas, *Technical University Of Berlin, Germany*
14. [Biomarker determination using innovative biomimetic sensors](#)  
Zeynep Altintas, *Technical University of Berlin, Berlin, Germany*
15. [Cancer biomarker sensing using the molecular imprints of self-assembled monolayer epitope bridges](#)  
Zeynep Altintas, *Technical University of Berlin, Berlin, Germany*
16. [Quality Control of Chinese Medicines](#)  
Shao-Ping Li, *University Of Macau, Macau, China*
17. [New Concept for Crystallization of Membrane Proteins](#)  
Thien Van Truong, *Ariel University, Ariel, Israel*
18. [Engineered-Micelles: Alternative to Protein A Chromatography?](#)  
Gunasekaran Dhandapani, *Ariel University, Ariel, Israel*
19. [Automated workflow for the study of drug-protein interactions based on capillary electrophoresis-frontal analysis combined with in-capillary mixing of interacting partners](#)  
Zdenek Glatz, *Masaryk University, Brno, Czech Republic*
20. [The Use of Proficiency Testing as a Tool for a Robust Quality Management System in a Pharmaceutical Lab](#)  
Nicolas Hauser, *Merck KGaA, Laramie, WY, USA*
21. [UPLC/Q-TOF-MS for Metabolic Profiles of Ginger and Its Representative Pungent Components in Rats](#)  
Zhihong Yao, *College of Pharmacy, Jinan University, Guangzhou, China*

22. [Comparison of two capillary electrophoresis-mass spectrometry interfaces for proteomic analysis](#)  
**Marie Jia Gou**, *CIRM, University of Liege, Liege, Belgium*
23. [Analysis of Pesticide Residues in Wolfberry and Dietary Exposure Risk Assessment](#)  
**Jiandong Yu**, *Institute For Control Of Chinese Traditional Medicine And Ethnic, Beijing, China*
24. [Quality evaluation of wolfberry from different regions in China based on the structure, yield and antioxidant activity of polysaccharides](#)  
**Ying Wang**, *Institute For Control Of Chinese Traditional Medicine And Ethnic, Beijing, China*
25. [Waste of Pills: The Hidden Bin](#)  
**Tagrid Morad**, *Masaryk University, Brno, Czech Republic*
26. [Multi-residue method for the determination of residues of nitroimidazoles, tetracyclines, sulfonamides and trimethoprim in honey by liquid chromatography–tandem mass spectrometry](#)  
**Kamila Mitrowska**, *National Veterinary Research Institute, Pulawy, Poland*
27. [The Ligand Binding Affinity of an Antitumoral Ru-complex with Calf-Thymus DNA as Revealed by NMR Spectroscopy](#)  
**Tiago Venancio**, *Federal, University Of Sao Carlos, Brazil*
28. [How to extract both polar and lipophilic compounds from a single tumor specimen?](#)  
**Szymon Macioszek**, *Medical University of Gdansk, Poland*
29. [How to identify the structure and analyze bimodal metabolomics data?](#)  
**Marta Kordalewska**, *Medical University of Gdansk, Poland*
30. [Method development for targeted analysis of modified nucleosides and deoxynucleosides in urine samples](#)  
**Małgorzata Patejko**, *Medical University of Gdansk, Poland*
31. [Systematic Optimization of Analytical Procedures for the Untarget Metabolomics Profiling of Human Plasma for Analysis of Inspiratory Muscle Training in Healthy Men](#)  
**Regina Oliveira**, *Federal University of São Carlos, Brazil*
32. [Two stationary phases prepared by natural active ingredient diosin and application in TCM quality control and chiral separation](#)  
**Baochun Shen**, *Kunming Medical University, Kunming, Yunnan, China*
33. [N-glycosylation analysis of therapeutic glycoproteins by multicapillary gel electrophoresis](#)  
**Csenge Filep**, *University Of Debrecen, Hungary*
34. [Post- exposure monitoring of chemical warfare agents using Dry Blood Spot sampling and LC-MS/MS analysis](#)  
**Lilach Yishai Aviarm**, *IIBR, Ness Ziona, Israel*
35. [Influence of Glyco-Oxidation on Human Serum Albumin Structure in The Presence of Palmitic Acid](#)  
**Agnieszka Szkudlarek**, *Medical University of Silesia, Chair and Department of Physical Pharmacy, Sosnowiec, Poland*
36. [Effect Of Human Serum Albumin Aggregation/Fibrillation On Its Transport Ability](#)  
**Małgorzata Maciążek-Jurczyk**, *Medical University of Silesia, Chair and Department of Physical Pharmacy, Sosnowiec, Poland*
37. [Evidence of the Interaction between Cyclic Siloxanes \(Silicones\) and Stratum Corneum Components](#)  
**Dagmara Bazar**, *Department of Physical Chemistry , Medical University of Gdańsk , Gdańsk, Polska*
38. [A Systematic Approach for Preventing the Loss of Hydrophobic Peptides in Sample Containers](#)  
**Stephanie N. Harden**, *Waters Corporation, 34 Maple Street, Milford, USA*
39. [Small Scale Natural Product Isolation Using UPLC With Mass-Directed Purification](#)  
**Stephanie N. Harden**, *Waters Corporation, 34 Maple Street, Milford, USA*
40. [The Effects of SFC Preparative Scale-up on Throughput, Purity and Recovery of an Impurity in an API Mixture](#)  
**Stephanie N. Harden**, *Waters Corporation, 34 Maple Street, Milford, USA*
41. [Meeting the Challenges of Implementing Accurate-Mass Mass Spectrometry for Biotherapeutic Development in Regulated/non-Regulated Environment](#)  
**Stephanie N. Harden**, *Waters Corporation, 34 Maple Street, Milford, USA*

42. [Modernization of USP Monographs for Naphazoline Hydrochloride and Pheniramine Maleate Ophthalmic and Nasal Solutions](#)  
Isaac Harel, Waters (TC) Israel Ltd., 17 Hamefalsim st, Petach Tikva, Israel
43. [Strategies to Evaluate and Monitor Forced Degradation Studies Using A Dual Detection \(UV-MS\) System](#)  
Isaac Harel, Waters (TC) Israel Ltd., 17 Hamefalsim st, Petach Tikva, Israel
44. [Evaluation of an Open Ambient Ionisation Source Coupled to a Portable Mass Detector as a Tool for The Rapid Detection of Undeclared Active Ingredient\(s\) in Online Health Supplements](#)  
Isaac Harel, Waters (TC) Israel Ltd., 17 Hamefalsim st, Petach Tikva, Israel
45. [Development of a SPE LC-MS/MS Method for the Bioanalytical Quantification of Pramlintide from Serum](#)  
Isaac Harel, Waters (TC) Israel Ltd., 17 Hamefalsim st, Petach Tikva, Israel
